FEDERAL STUDENT AID

Need help paying for college? The Madera Community College Center can help. The Financial aid process, from application to disbursement, can be broken down into four steps:

1. **Complete the FAFSA.** The FAFSA is a required application for nearly every type of federal or state financial aid program. The FAFSA is available online at www.fafsa.gov. If you are an undocumented student, you should complete the DREAM Act Application instead.
2. **Receive notification of your application status.** After submitting the FAFSA online, you will receive an email confirmation from the federal Central Processing System (CPS) within 1-3 business days. In approximately 1-2 weeks, our office receives the results of your FAFSA from CPS. We will then send you a Status Notification Letter (SNL) by email. The SNL will be your official acknowledgement that we have received your FAFSA and will also inform you of any additional documents that are required to complete your financial aid file. It is extremely important that you receive this email, so be sure to activate your State Center Community College District (SCCCD) Student Email account.
3. **Submit required documents to the Financial Aid Office (FAO).** Documents can be submitted in person, by mail, or fax. Once all required documents are received by our office, a Financial Aid Assistant will review the documents and process the file. Once your file is complete, you will receive notification of your eligibility status by email. Students who are eligible for some form of financial assistance will receive an official Award Notification, which will provide you with information regarding specific financial aid awards, award amounts and disbursement dates, if applicable.
4. **Wait for the disbursement!** Reedley College and its centers (Madera and Oakhurst), disburse financial aid based on a predetermined disbursement schedule. The disbursement schedule is available on the Reedley College Financial Aid website at www.reedleycollege.edu/financialaid. Students can receive their financial aid payments by one of two methods: 1) a paper check by mail or 2) by Direct Deposit into a bank account. All students will receive a disbursement confirmation email approximately 3-5 business days prior to the disbursement date. This email will confirm the payment type, amount, and date.

FEES AND CHARGES**

This information is provided by the District under Board Policy and Administrative Regulation 3260 for purposes of ensuring compliance with California law regarding the imposition of fees and charges, solicitation of donations, and fundraising by California public schools. The District's intent is to ensure our families and the Madera community understands how they can best support the programs in which their children participate. Clear communication from all District sources as they pertain to fees, donations and fundraising is essential. Several approved template forms and letters are included in the manual for use by District administrators, school sites, coaches, and teachers, to assist in developing letters and flyers to use for your school site, classroom, activity, program, or sport. Any written communication on this subject must be approved by your school site principal prior to distribution.

If you have any questions regarding student fees, charges, deposits, donations, or fundraising, or any other issues related to that covered herein, please contact your school site principal or the District's Associate Superintendent of Educational Services.

The Free School Guarantee

The California Supreme Court has held that the free school guarantee under the California Constitution prohibits charging students any fee, charge or deposit for curricular, extracurricular, credit, or non-credit activities that are part of the District's or a school site's educational program. (Cal. Const., art. IX, § 5; *Hartzell v. Connell* (1984) 35 Cal.3d 899, 905, 911.)

In *Hartzell*, the California Supreme Court considered for the first time the issue of the free school guarantee in the context of whether a school district could charge students fees for participating in educational activities that the district considered extracurricular. There, the district adopted a plan to maintain its athletic and band programs by charging a fee for each student who wanted to participate in those extracurricular activities. The district also had a policy for financial hardship waivers for those students who could not afford the fees. The Court invalidated the district's student fee structure, concluding that, "the free school guarantee extends to all activities which constitute an 'integral fundamental part of the elementary and secondary education' or which amount to 'necessary elements of any school's activity.'" The Court reasoned that extracurricular offerings, such as sports and band fall within the Constitutional free school guarantee as part of a school district's educational program and offerings, and that a hardship waiver process does save the illegality of fees and charges for such educational offerings.

The California Code of Regulations

In addition to the Constitutional limit to the charging of fees to students, the California Code of Regulations, title 5, section 350 ("title 5, section 350"), entitled "Fees Not Permitted," directs: "A pupil enrolled in a school shall not be required to pay any fee, deposit, or other charge not specifically authorized by law." This provision is read to allow for the imposition of a fee or charge to a student only when it is statutorily authorized. There are a number of such statutory authorizations in the Education Code addressed in this manual.

Voluntary Donations and Fundraising

In terms of voluntary donations to support District programs, by their very definition such contributions are not mandatory fees, charges or deposits, and therefore do not offend the Constitutional free school guarantee or title 5, section 350. Further the Education Code clearly envisions that voluntary donations to support the District and its programs are lawful.

- (Education Code 41032)
- (Education Code 41037)
- (Education Code 51520)
- (Education Code 51521)

The ability to accept and the statutory authority for accepting voluntary donations from students and their families have been reaffirmed by the California Attorney General. (See 81 Ops. Cal. Atty. Gen. 153 (1998).) Consistent with this authority, the District's Board Policies 1321 and 3290 account for the propriety and viability of solicitation and receipt of voluntary donations.

As a result, nothing in the law prohibits voluntary donations, contributions, and fundraising by students and their families to support District and school site programs, so long as monetary donations, contributions, and fundraising activities are not made mandatory for students and their families and there are no conditions placed upon the donation.

Recreational, Non-educational Activities

Charges by private businesses to students for services that are not integral parts of the District or a school site's educational program are permissible, even if facilitated by the District or school site (e.g., school pictures). Additionally, the District and its programs may impose a charge for offerings that are not integral to the District's educational program (e.g., for spectators travel to athletic events, entry fees for school dances, or recreational trips unrelated to the school curriculum such as to amusement parks).
